1. At the request of [REDACTED] we have prepared the attached report [REDACTED] by illustrating how Stalinist practice has deviated from Marxist doctrine. The East German press has indicated that 1953 will be celebrated as "Karl Marx Year" and that Communist propaganda will probably devote considerable attention to Marx.

2. This study has been prepared to be completely unclassified when 25X1A8a separated from its cover sheets. To further facilitate its operational use in the field it has been written in German, at the suggestion of [REDACTED]. An English translation of the summary is attached.
